

Julie Ann Berry, M.D.

Dr. Berry received her BS degree from the University of Notre Dame. She then attended medical school at the University of California San Diego where she graduated first in her class. After a general surgery internship, she completed her Otolaryngology-Head and Neck Surgery residency at the University of Maryland. While in residency she performed research on middle ear infection vaccines at the National Institutes of Health. Upon finishing her specialty training, she served as an active duty Air Force Otolaryngologist at Andrews Air Force Base, Maryland. While in the Air Force she served as Chief of Otolaryngology-Head and Neck Surgery at Malcolm Grow Medical Center. She then returned to California to enter private practice in North San Diego County. During her years of private practice, she has also served at Tri-City Medical Center in several capacities, including as Chief of the Surgical Subspecialties Division. When not practicing medicine, she enjoys running, sewing, volunteering as a Girl Scout leader, and spending time with her husband, three children, friends, and extended family.
